**POLYPACK PVT. LTD.**

## About US

---

Bubblefine Pvt. Ltd. is spread over 40,000 square feet of area and well equipped with state of the art machinery and instruments. We are one of the largest manufacturer and exporter of Bubble Guard Sheets, Our expertise is in providing customized solutions for PP material.

We, Bubblefine believe in staying ahead of today's technological race by implementing latest machineries as well as equipments to fulfill requirements of our customers with best quality at best possible price.

Bubblefine has won trust of their customers within a short period of time by "Customer first" approach and emerged as one of the best leading manufacturer in the field of Polymer products.

## Why us

---

### Over 40 years experience working with plastics

Our highly qualified team has the knowledge and experience to ensure that every order is completed to the highest standards.

### Dedicated customer support team

We strongly believe in excellent customer service and our support team is on standby from 9 am to 8.00 pm Monday — Saturday to deal with any queries you may have regarding your order. We always try to answer customer's emails within 24hrs.

### Satisfied customers

Over the years we have fulfilled requirements of a wide range of customers from large corporations to private individuals.

### Fast and well-packaged delivery service

We have an excellent relationship with our Transporter service and all orders are meticulously packed using a variety of materials to ensure the sheets arrive in excellent condition. Where necessary, larger sheets may be shipped on a pallet(s) to guarantee against breakage. We aim to dispatch your order within 3 working days however during busy periods this may extend to 5 - 7 working days.

### Highest grades of material guaranteed

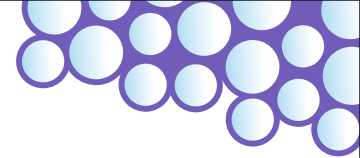

We pride ourselves in providing high quality of material at best & lower cost possible.

### Our Vision

To provide superior quality of Polymer Products through our "Customer First" approach and build a long term relationship with our clients.

### Our Mission

Keep doing constant R & D to provide our clients sustainable and efficient product at minimum possible cost.

## Our Products

### Package Guard

The Pack Guard range of boards are strong and rigid and can be easily fabricated into boxes. Its unique circular honeycomb structure makes it lightweight, durable, impact resistant and liquid proof, making it an ideal storage solution for various industrial equipment, tools and product parts. The air-lock technology ensures optimum cushioning and remains durable for multiple uses. Pack Guard is thus, the best solution for returnable packaging. Unlike corrugated PP flute, Pack Guard has a perfectly flat surface, providing better stiffness; while its uniform strength in all directions gives it a higher load-bearing capacity, even at a lower GSM.

Pack Guard can be cut or creased into any shape as per your requirement. Fabrication is possible with pre-existing machinery and does not require any special tools.

### Floor Protection Guard

Bubble Guard brings to you a series of floor protection boards that safeguard your expensive floorings like Italian marble, marbonite, tiles and granites from scratches, spillage and falling materials during construction and renovation. Floor guard is a quick and economical floor protection solution.

The scientifically engineered honeycomb structure creates a soft air cushioning that ensures your floor is protected from falling debris or scratches during material movement. The air-lock technology makes it durable and reusable multiple times.

### Shipping Pallet Guard

Bubblefine presents Pallet Guard Sleeve System, the most secure and versatile packaging solution. The intelligent space-saving unit is comprised of 3 parts – Lid, Sleeve and Pallet – designed to store and transport loads of up to 500 Kgs. PSS can be completely collapsed when empty for efficient reverse logistics. The injection moulded Lid and Pallet deliver high strength and load carrying capacity without increasing the weight of the packaging. The scientifically designed walls and ribs provide larger internal dimensions and carrying capacity. Pallet Guard Lid and Pallet are designed with a 3 runner base for stable stacking and compatibility with all standard forklifts for easy handling. The Sleeve, made from Bubble Guard with a unique honeycomb core, offers a combination of high physical durability and ultra-low weight. Its impressive impact and compressive strength due to air-lock technology keeps damage at bay during rough transportation. The robust unit is quality tested for 1000+ cycles to provide an outstanding cost-performance ratio per use. Replacement Sleeves are available to further extend usage. Precise dimensions as per international standards ensure the pallet sleeve system can be easily integrated into your existing supply chain.

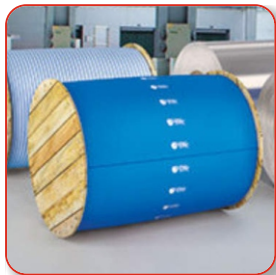

### Print Signage Guard

a new range of printing & signage solutions. These high-tech, eco-friendly polypropylene boards are tailor-made for the graphic and display industry as their patented design provide a seamless finish with their matte surface and corona treatment.

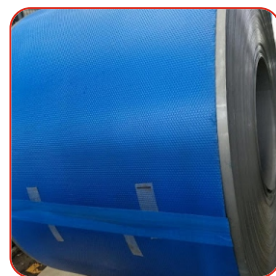

## Package Guard

### ADVANTAGES

- Stiff and rigid
- Uniform strength in all directions
- Can be bent, folded, welded, thermoformed
- Lightweight

### APPLICATION

### KEY BENEFITS

Stiff & Rigid

Fully recyclable

High load carrying capacity

Can be customized with branding

Can be bent, folded, welded, thermoformed

Uniform strength in all directions

Lightweight

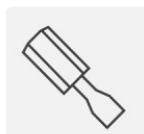

Reusable multiple times

Value added lamination possible with soft surfaces

### SALIENT FEATURES

Best Suited For	Sizes Available	Variants Available	Colours Available
● All type of Packing Protection	● 4 x 6 feet, 4 x 8 feet	● 400 - 2000 GSM	● White, Grey

### Operations :

BOLTING

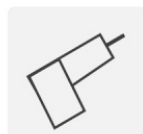

COLD CURVING

COLD FORMING

DIE CUTTING

DRILLING

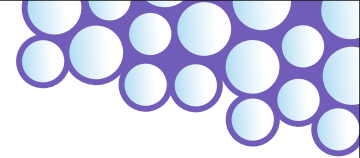

GLUEING

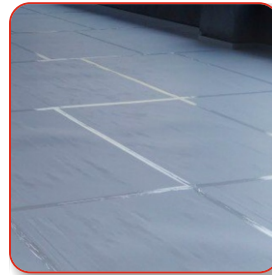

LASER CUTTING

## Floor Protection Guard

### ADVANTAGES

- Quick and easy to use
- Reusable multiple times
- Easy to apply - No special labour required
- High impact resistance

### APPLICATION

### KEY BENEFITS

Quick & easy to use 

Easy to apply - No special labour required 

Keeps workspace clean and tidy 

Time and cost saving 

 Reusable multiple times

 High impact resistance

 Waterproof

 Easy to cut to size

### SALIENT FEATURES

Best Suited For	Sizes Available	Variants Available	Colours Available
● Onsite Floor Protection	● 4 x 6 feet	● 200 GSM	● White
● Protection of tiles/marble during material transit	● 4 x 6 feet	● 250 GSM	● Blue
	● 1 x 2 meter	● 350 GSM	● Yellow
	● 1.25 x 2 meter	● 500 GSM	● Brown

### Operations :

MILLING

RIVETING

SAWING

TURNING

WARM BENDING

WATER JET CUTTING

WELDING

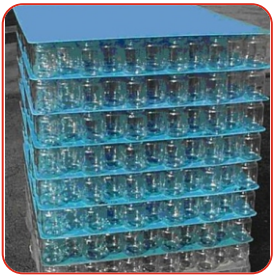

# Shipping Pallet Guard

## ADVANTAGES

- Keeps workspace clean and tidy
- Waterproof
- Time and cost saving
- Easy to cut to size

## APPLICATION

## KEY BENEFITS

Front and Back Flap for easy access

Internal partitions and fabrication

Variable height and size

Document pouch

Inner lamination or soft trays

3 runner pallet base with access from all sides

Secure-Lock

Flat closed edges for safety

Logo or corporate branding

Velcro flap lock

Trip-tracker

'M' or 'Z' folding for optimal return
